Continuation - Briefly explain the reason for scholarship request, how it will impact your life and how you can help others:

The reason <sup>applying for this scholarship</sup> is that my parents are unable to pay for me school fees and my father is a casual labourer. Infact they were unable since I joined primary school, I could be sent for school fees daily and my parents could struggle the way he can to pay for me my school fees. Many people had promised me to pay for my school fees when I was joining form one but they ended up failing to pay for me. My father who is a labourer and my mother jobless because ~~he~~ she never studied did struggling to make sure I have joined form one. In both terms I have been send home because of school fees and I stay at home until when my father have anything to pay for me. Sometimes I usually go back with nothing and plead to my principal who allows me to stay in school. I will be very happy if I will get <sup>the scholarship and be</sup> able to learn seriously without any problems and difficulties of thinking where the school fees will come. I would also like to help those

who have dropped out from the school because of school fees, and also help those who have faced many problems like me and have no-one to pay for them. Again the scholarship will help me to be retained in school, hence improve in my academic performance and finally go to university, where I will study for my dream profession - being a teacher.
