Continuation - Briefly explain the reason for scholarship request, how it will impact your life and how you can help others:

My main reason for scholarship request is that I am a child of single parent who is unable to pay my school fees because he himself is jobless. My background is very humble because I live with my old grandmother and aunt who are all jobless because my mother who was the only breadwinner got sick of pneumonia and passed away a few years ago. My siblings who are two also want to get learned and that's why I need the scholarship. If I will get the scholarship request I promise to work very harder to be able to achieve my goals and visions in my life. The scholarship will help me to stay in school continuously without going home for school fees and that will help me to avoid many thinkings about background and school fees payment. Through the scholarship I will be able to achieve my dreams and have a brighter future than my parents. The scholarship will also help me to help others who come from very humble backgrounds like mine and the needy who need education in the society. It is through the scholarship that I will help others to shine in the

will even shine in the whole world and even support any kind of organisation or associations concerned about education. In my society I will make sure that all school drop outs get learned even if it is through joining the technicals around.
